

Laboratory Careers with Impact!

Interior Health (IH) is one of six health authorities responsible for publicly funded health services in British Columbia. With over 18,000 employees and 1,230 physicians on our team, we are developing the future of health care through innovation and professional development.

Our Health Service Areas are comprised of safe, friendly communities situated in a breathtaking "four seasons" playground with a wide range of activities to enjoy. Whether you're after an urban lifestyle or peaceful rural setting, you'll find it here. Immerse yourself in the arts and culture scene or take on recreational adventure with skiing, mountain biking, and fishing right outside your door, any day of the week. All of IH's regional locations offer easy access to major cities like Vancouver or Calgary to keep you in touch with all the action of the "big city".

IH's laboratory service consists of 32 laboratories of various sizes from large tertiary sites with individual departments and specialized testing to small one-person facilities with combined laboratory and x-ray technology and specimen collection centres. All our laboratories offer modern up-to-date equipment and technology. Our mission is to deliver the right test result, at the right place, at the right time. We value providing safe, convenient, respectful, and accessible service to patients while maintaining a team oriented, collaborative, and supportive work environment.

Our Laboratory professionals communicate effectively, and have the ability to plan, organize, and prioritize. As an integral member of our team, we rely on your ability to problem solve with an awareness of current issues and trends in health care.

Exciting Opportunities within our Laboratory departments include:

- Combined Laboratory/X-Ray Technologist
- Laboratory Assistant
- Laboratory Technologist
- Pathology Assistant
- Pathology Attendant

We are looking for technologists who have broad technical experience as well as those who have specialty training and knowledge.

Laboratory positions are available throughout IH from management to front-line technologists. Positions range from full time to casual. Once hired into a casual role, workers are eligible to apply for internal postings including permanent, relief or term positions. There are many opportunities with IH that begin with casual on-call positions and lead to regular employment.

We Offer:

- Leadership committed to team work, empowerment, innovation, and quality
- Interdisciplinary colleagues who put our patients / clients at the center
- Learning opportunities for continued growth and focused skill development support
- Highly competitive wages, benefits, and relocation support

Interested?
